Job Title: Front End Developer (Specializing in Animation, WordPress, and Webflow)
Full Time Position
Budget: P30k-P50k/month

Job Description:
We are seeking a highly skilled Front End Developer with expertise in animation, WordPress, and Webflow to join our team. As a Front End Developer, you will be responsible for implementing interactive and visually stunning user interfaces across various web platforms.

Responsibilities:
- Develop and implement responsive and engaging front end solutions using HTML5, CSS3, JavaScript, and other modern web technologies.
- Create captivating animations and interactive elements to enhance user experience.
- Collaborate with designers and back end developers to translate design mockups into functional websites and web applications.
- Customize and maintain WordPress websites, themes, and plugins to meet project requirements.
- Utilize Webflow to design and develop responsive and pixel-perfect websites.
- Optimize websites for performance, speed, and accessibility.
- Stay up-to-date with the latest trends and best practices in front end development and animation.

Requirements:
- Bachelor's degree in Computer Science, Web Development, or related field.
- Proven experience as a Front End Developer with a strong portfolio showcasing front end animation, WordPress, and Webflow projects.
- Proficiency in HTML5, CSS3, JavaScript, and jQuery.
- Experience with CSS animation libraries (e.g., GreenSock, Anime.js) and animation techniques (e.g., CSS transitions, keyframes).
- Expertise in WordPress development, including theme customization, plugin development, and performance optimization.
- Familiarity with Webflow and its design and development capabilities.
- Solid understanding of responsive web design principles and cross-browser compatibility.
- Excellent communication and collaboration skills.
- Ability to work independently and efficiently in a fast-paced environment.

Preferred Qualifications:
- Experience with version control systems (e.g., Git).
- Knowledge of SEO best practices.
- Familiarity with UX/UI design principles.
- Experience with graphic design tools (e.g., Adobe Photoshop, Figma).
